12-step solar panel installation guide for professional installers: site survey to IEC 62446 commissioning tests, torque specs, wiring, and handover docs.

[Rosetta Simulator Run Destination not showing in Xcode 26](#)

The solution for me was to force Xcode to download a "Universal" version of the iOS 26 simulator rather than the default "Apple Silicon". Here are the steps: In the top menu: Xcode ->

How do I add Icon Composer glass app icons to my existing pre-iOS

Great. But when I run my app from Xcode 26 on an iOS 15-18 device or simulator, I am getting weird versions of the new glass icon instead of the expected old style icon it has always used.

[Flutter iOS build error after iOS 26 rollout: Unable to find](#)

I recently upgraded my environment after the roll out of iOS 26, and now I'm unable to run my Flutter app on either an iOS simulator or a physical iPhone device.
