

Construction of a new energy storage park in the Italian Zero Carbon Industrial Park

Construction of a new energy storage park in the Italian Zero Carbon

Roadmap to carbon emissions neutral industrial parks: Energy,

This article proposed a framework containing energy, economic and environmental analysis methods coupled with an optimal model and discussed the roadmap to achieve an electric

Construction's new worker demand drops to 350,000 in 2026: report

Construction's new worker demand drops to 350,000 in 2026: report Down from half a million in recent years, the estimate could prove conservative as construction workers retire and

Integrated Energy Systems for Zero-Carbon Industrial Parks:

We seek to highlight the crucial role of integrating high-penetration renewable energy sources (e.g., solar, wind) with advanced energy storage technologies (e.g., battery, hydrogen, thermal storage).

Data center construction rolls into 2026 , Construction Dive

Data center construction rolls into 2026 2025 may have come to an end, but the data center construction boom continued.

Italy: Energy Vault and Carbosulcis

[Announce 100MW Hybrid](#)

The proposed system combines long-established pumped hydro energy storage technology with Energy Vault's innovative gravity energy storage technology, allowing the partners to

Construction of a new energy storage park in Rome Zero Carbon

By utilizing low-carbon technologies such as waste heat recovery and integrating solar, energy storage and charging systems, energy consumption at the park can be reduced in single-product production

[Construction Dive's May 2025 economic roundup](#)

Construction Dive's May 2025 economic roundup Building activity softened last month as tariff impacts and project delays began to ripple through contractors' pipelines.

[5 construction trends to watch in 2026, Construction Dive](#)

5 construction trends to watch in 2026 Contractors will be keeping tabs on material costs, data center demand, interest rates and more this year.

Deep Dive

Dive deep into construction industry research, insight and analysis from our team of journalists.

Energy Vault

Located at Carboluscis' Nuraxi Figus coal mine in Sardinia, Italy, Energy Vault, starting from a first industrial prototype, is developing an innovative hybrid

[Italy Accelerates Solar Energy and Industrial Energy](#)

In response, Italy is prioritizing the development of grid-scale battery energy storage systems (BESS Italy) alongside new industrial and commercial

[The top commercial contractors of 2025](#), [Construction Dive](#)

The top commercial contractors of 2025 Turner maintained the No. 1 spot for another year, Bechtel reclaimed second place and HITT made its top 10 debut after a huge revenue boost.

[Construction Champions 2026](#), [Construction Dive](#)

Construction Dive's sixth annual awards program for Women in Construction Week honors 30 outstanding leaders across five different categories.

[Construction News and Trends](#), [Construction Dive](#)

Construction Dive provides news and analysis for construction industry executives. We cover commercial and residential construction, focusing on topics like technology, design, regulation, legal

[Energy Vault and Carbosulcis Announce 100MW Hybrid Gravity](#)

"We are very excited about the innovative energy storage combined solution proposed by Energy Vault, including underground gravity energy storage technology, that we are testing together and that can

[Energy Vault and Carbosulcis Announce 100MW](#)

The 100MW energy storage system will be owned and operated by Energy Vault, and is key to increasing the local use of renewable energy in

Chicago Fire FC kicks off construction of \$750M soccer stadium

Chicago Fire FC kicks off construction of \$750M soccer stadium The privately funded venture, bankrolled by Morningstar founder Joe Mansueto, will become the first major professional

[Construction Dive's July 2025 economic roundup](#)

Construction Dive's July 2025 economic roundup The data center boom remains hot but tariffs and labor concerns are casting doubt over the construction outlook.

Italy moves forward with energy storage with the approval of 800 MW

This system will be located in Candela (FG), in the Puglia region, and will consist of 232 storage modules, a 400 kV substation, and an interconnection infrastructure that will maintain its
