

Electric vehicle adoption new zealand

Overview

By the end of 2023, New Zealand electric vehicle registrations reached 27.2% of new car sales. This was an increase from electric vehicles representing 6.45% of new car sales at the beginning of the clean car subsidy programme in July 2021. While sales of new electric vehicles have increased, the New Zealand EV fleet is dominated by second-hand imported from Japan. In December 2023 there were 23,067 registered Leafs, accou.
