### [Explained: Generative AI's environmental impact](#)

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

### [One-Stop Energy Storage Solution Provider , Wenergy](#)

Wenergy is a leading provider of energy storage solutions for utility-scale, C&I, and residential applications. Our ESS products are safe, simple, durable, flexible,

### **New facility to accelerate materials solutions for fusion energy**

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron proton beam

### [Secure energy storage and management systems - Torus](#)

Torus products are manufactured, coded, and assembled in the United States in secure facilities, supporting domestic energy independence, improving grid security, and minimizing supply chain

### [MIT Energy Initiative conference spotlights research](#)

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.

### **Giving buildings an "MRI" to make them more energy-efficient and**

Founded by a team from MIT, Lamarr.AI utilizes drones, thermal imaging, and AI to identify energy waste and structural issues in buildings and recommend retrofits.

### **Study: Fusion energy could play a major role in the global response to**

Investigators in the MIT Energy Initiative and the MIT Plasma Science and Fusion Center have found that - depending on its future cost and performance - fusion energy has the potential

### **Next-generation geothermal energy: Promise, progress, and challenges**

Geothermal energy, a clean, continuous energy source accessible in many locations, has been slow to catch on. Nearly 2,000 years ago, the Romans made extensive use of geothermal

### [Making clean energy investments more successful](#)

New research emphasizes the importance of well-validated models and forecasting tools in

evaluating choices for investments in clean energy technologies and policies by governments and

### Distributors - California Solar & Storage Assoc. (CALSSA)

With locations in Northern and Southern CA, 99%+ audited order accuracy, under-24-hour jobsite delivery, and unmatched service, we are committed to help your solar installation business grow.

### **A new approach could fractionate crude oil using much less energy**

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed for crude oil

### **How artificial intelligence can help achieve a clean energy future**

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

### **MIT engineers create an energy-storing supercapacitor from ancient**

MIT engineers created a carbon-cement supercapacitor that can store large amounts of energy. Made of just cement, water, and carbon black, the device could form the basis for
