What Is ESS Iron Flow Battery?

ESS Iron Flow Battery is a non-lithium electrochemical energy storage system utilizing iron, salt, and water as electrolytes, designed for 4-12 hour duration applications in commercial and utility-scale

[Advancing Iron Flow Battery Technology with ESS](#)

Unlike conventional lithium-ion batteries that rely on more expensive, hazard-managed materials, ESS's iron-flow batteries use iron, salt, and water, which are widely available and can offer a safer,

[ESS , K-12 Education Personnel & Management Solution](#)

ESS specializes in hiring, placing, and managing qualified substitute teachers and school support staff in K-12 school districts nationwide.
