

# How many levels are Trina photovoltaic panels divided into

The image is a composite graphic. At the top, a photograph shows a modern, dark-colored house with a prominent gable window. Below this, on the left, is a large, white, vertical Trina solar inverter. To the right of the inverter, there is a text box with the following text: *Support photovoltaic input and AC mains input* and *Suitable for home energy storage and emergency backup power supply*. Below the text box is a smaller inset image showing a variety of smart home appliances, including a ceiling-mounted air conditioner, a range hood, a refrigerator, a gas stove, a water dispenser, and a laptop.

## Overview

---

Currently, in Australia Trina offers three series of panels Honey, Tallmax, and Vertex. The Honey Series was Trina's most popular solar panel in Australia striking a balance between efficiency and quality along with an affordable price.
