

How many volts is the 500 volt power supply for the base station

Overview

I have read that 70-75 amps is sufficient enough for the 500V. I'm hoping other members reply to my questions.

How many volts is the 500 volt power supply for the base station

TEXAS STAR 500 AND POWER SUPPLY

You can't really "volt" the newer TS 500s because of the chinesium transistors and smaller internals than the old guys. If you're having to adjust voltages that much you must be using the PSU
