

# Mining Bureau Photovoltaic Panel Project

## Mining Bureau Photovoltaic Panel Project

---

### Bright side of the mine

But the installation of solar power capacity is only one measure of progress. Building solar on former coal mines creates jobs, makes abandoned lands safer, and tackles coal sector methane leaks that

### Deploying photovoltaic systems in global open-pit mines for a clean

We assess global open-pit mining sites as potential solar hubs, analysing their technical feasibility and deployment timelines under diverse future scenarios.

### [Rio Tinto approves new solar plant to power Kennecott](#)

The 210-acre solar array will include more than 71,000 panels, which contain tellurium produced by Kennecott, a byproduct of mining and refining copper. In 2022, Kennecott became one

### Republic Solar Project

Discover how UPPCO's Republic Solar Project transforms a former mine site into a 62.5 MW solar facility, advancing clean energy, economic

### FACT SHEET

In conjunction with EPA's cleanup planning at the

site, Chevron, the potentially responsible party, coordinated with EPA and state agencies to construct a 1 MW concentrated photovoltaic (CPV) solar
