## **When to use "new" and when not to, in C++?**

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

## **What is the 'new' keyword in JavaScript?**

The new keyword in JavaScript can be quite

confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems
