

New Energy Silicon Carbide Inverter Manufacturer

New Energy Silicon Carbide Inverter Manufacturer

NREL-Developed Silicon Carbide Inverter Part of Production-Intent

In collaboration with John Deere, NREL researchers helped develop a silicon carbide (SiC) inverter that is now part of a production-intent program at John Deere.

What is the Difference Between 'new object()' and 'new {}' in C#?

Note that if you declared it `var a = new { }`; and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it

[Hybrid Inverters & Solar Battery Inverters](#)

Harnessing cutting-edge technology, Sigen Hybrid Inverter achieve remarkable efficiency with three-phase units reaching 99.0%, thanks to our innovative use of Silicon Carbide (SiC), delivering

New site design and philosophy for Stack Overflow: Starting February

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.

Difference between 'new operator' and 'operator new'?

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call "sizeof" the sizeof

Is JavaScript's "new" keyword considered harmful?

It is NOT 'bad' to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'

STMicroelectronics unveils new generation of silicon

With the recently announced fully vertically integrated SiC substrate manufacturing facility in Catania, expected to start production in 2026, ST is

onsemi Releases Upgraded Power Modules to Boost

What's New: Today, onsemi released the newest generation silicon and silicon carbide hybrid Power Integrated Modules (PIMs) in an F5BP

What is the 'new' keyword in JavaScript?

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-

oriented programming language. What is it?
What problems

DENSO Develops Its First Inverter Using SiC Power

KARIYA, Japan (Mar. 31, 2023) - DENSO CORPORATION, a leading mobility supplier, announced it has developed its first-ever inverter with silicon carbide

Wolfspeed Unveils Cutting-Edge Silicon Carbide Module Solution to

Innovative 2300V modules utilize 200mm silicon carbide technology to deliver energy efficiency for various applications, including renewable energy, energy storage, and high-capacity

Hopewind Selects Wolfspeed to Power the Future of Wind Energy with

In addition to wind power converters, Hopewind also develops and manufactures solar inverters, energy storage systems (ESS/PCS), and hydrogen energy solutions.

GE Vernova expands its utility-scale FLEXINVERTER platform to

Munich, Germany (May 7, 2025) - GE Vernova Inc. (NYSE: GEV) today announced the launch of two key updates to its utility-scale FLEX INVERTER platform: The new FLEX INVERTER 1.5kV solution

[Charged EVs , Wolfspeed unveils new 1200 V silicon](#)

Wolfspeed has announced the release of its 1200-volt silicon carbide (SiC) six-pack power modules, targeting high-power inverter

new operator

In the specific case of throw, throw new() is a shorthand for throw new Exception(). The feature was introduced in c# 9 and you can find the documentation as Target-typed new expressions.

[How does the new operator work in JavaScript?](#)

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this object, pointing to the Function prototype

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

javascript

83 new() describes a constructor signature in typescript. What that means is that it describes the shape of the constructor. For instance take {new(): T; }. You are right it is a type. It is the type of a class
