

# **New foundation for powering telecommunication base stations in Saudi Arabia**

## Overview

---

Saudi Telecom Company (STC) has won a SAR32.7 billion contract to develop a new telecommunications infrastructure in Saudi Arabia. The contract was awarded by an "unknown" government entity, the Saudi-listed telco said in a bourse filing on Tuesday.

## New foundation for powering telecommunication base stations in Saudi Arabia

---

### How does the new operator work in JavaScript?

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this object, pointing to the Function prototype

### Hybrid Renewable Energy for Telecom in Saudi Arabia

This research paper presents a techno-economic analysis of standalone hybrid renewable energy systems for the telecommunication sector in Saudi Arabia, emphasizing the need to transition from

### **When to use "new" and when not to, in C++?**

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

### **Al-Babtain Power & Telecom**

Founded in 1955, Al-Babtain has been active in the area of outdoor lighting, transmission & distribution, telecommunications, and renewable energy. Al-Babtain has expanded and diversified over the

Buildings in urban areas often house base stations on their rooftops. Instead, the array of cells constituting the RIS are electronically reconfigured. Each cell

## **new operator**

In the specific case of throw, throw new() is a shorthand for throw new Exception(). The feature was introduced in c# 9 and you can find the documentation as Target-typed new expressions.

## **javascript**

83 new() describes a constructor signature in typescript. What that means is that it describes the shape of the constructor. For instance take {new(): T; }. You are right it is a type. It is the type of a class

## [Difference between 'new operator' and 'operator new'?](#)

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call "sizeof" the sizeof

## [Is JavaScript's "new" keyword considered harmful?](#)

It is NOT 'bad' to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'

## **What is the Difference Between 'new object()' and 'new {}' in C#?**

Note that if you declared it `var a = new { };` and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it

## **New site design and philosophy for Stack Overflow: Starting February**

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.
