### When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

### China accelerates market integration of wind and solar generation

The policy allows market mechanisms to determine the feed-in tariffs for wind and solar power in China. It seeks to make resource allocation more efficient, promote a fair competition, and

### New site design and philosophy for Stack Overflow: Starting February

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.
