

Solar glass moisture-proof

Overview

The tempered glass covering your solar panels provides the primary barrier against moisture. If this glass cracks-whether from hail, falling debris, or manufacturing defects-water can infiltrate the panel's interior.

Solar glass moisture-proof

Are solar panels waterproof?

Several components make solar panels waterproof. A thin glass sheet protects the front, and a durable, polymer-based material covers the back.

Are Solar Panels Waterproof?

Having a treated glass surface and polymer back plate allows rain, snow, and other airborne moisture to run off the glass without sticking or
