

Uganda container energy storage cabin fire protection

Overview

Cabin level detection: Install four composite fire detectors (five in one - hydrogen, carbon monoxide, VOC gas, smoke temperature) at the top of the energy storage battery compartment, and connect them to the fire alarm controller inside the compartment through CAN bus communication.

From rafting the Nile to hiking the Rwenzori Mountains, bungee jumping, zip-lining, Uganda is an adventurer's paradise; thrilling experiences await at every turn.

Uganda container energy storage fire protection system manufacturer

For fire safety reasons, we not only need to install small fire extinguishing systems on lithium-ion battery packs but also install large fire extinguishing systems in energy storage containers.
