

Ukrainian Communications Green Base Station Budget

Overview

It is based on the Budget Declaration for 2025-2027, which emphasises the importance of ensuring macroeconomic and financial stability for Ukraine in the face of Russian aggression.

Ukrainian Communications Green Base Station Budget

[By 2030, 98% of Ukrainians will have high-quality mobile](#)

According to the Ministry of Digital Affairs, the implementation of the strategy will allow for the creation of an additional UAH 56 billion in GDP, which will strengthen the state budget.

[The Battle for Control Over Ukraine's Internet](#)

As of Oct. 13, Ukrainian mobile operators have rebuilt 71 of their base stations in towns and cities liberated from Russian occupation since the beginning of the counter-offensive last month,

[Resilience in connectivity: Ukraine's digital battlefield](#)

Before the war, gaining permission to build a base station could take up to two years. Reforms have since reduced this timeline to six months, with plans to shorten it further to one to

[Rebuilding Ukraine's telecoms infrastructure amid war](#)

The war has led to the destruction of more than 4,000 base stations across all operators, plus 60,000 kilometers of fiber optic lines, while 12.2 percent of households have lost access to
