MONITORING OF SYSTEM STATUS

Overview

Uzbekistan is a country in Central Asia with a growing demand for electricity. Solar power can play a role in meeting this demand, as the country has abundant solar resources and a strong potential for solar energy generation. The government of Uzbekistan has implemented several initiatives to promote the use of solar power, including the development of large-scale solar power plants and the introduction of incentives for individuals and businesses to install solar panels. Some of the benefits of solar power in Uzbekistan are:
