

Warsaw lithium-ion battery technology

Overview

A team of researchers from Warsaw University of Technology's Faculty of Chemistry have developed a new electrolyte that significantly extends the life of lithium-ion batteries and has already found application in smartphones and electric cars.

Ascend Elements , Republic of Poland Offers Ascend Elements Up to

Ascend Elements plans to commercialize its innovative technology for the manufacture of nickel, manganese, and cobalt (NMC) pCAM made from recycled lithium-ion battery materials at the

[WUT scientists' electrolyte greatly increases battery life](#)

A team of researchers from Warsaw University of Technology's Faculty of Chemistry have developed a new electrolyte that significantly extends

[WUT ideas take over the world of batteries / News /](#)

Our scientists have developed the first in Europe and second in the world salt for lithium-ion cells which was implemented in manufacturing on an

[Energy transformation according to WUT](#)

WUT researchers are working on new generation batteries

Materials made by the team have for years worked in commercial lithium-ion batteries, also with latest generation electrodes. Now it is time for

Future of the battery industry

The 2019 Nobel Prize in Chemistry was awarded for the development of lithium-ion batteries. This contributed to increased interest in

physicists

Our specialists focus on two main streams: conductors of lithium and sodium ions and oxygen ions. An alternative to "spillable" batteries. Solid

Why was child support taken out of my benefit payment?

Why was child support taken out of my benefit payment? We share information with the Division of Child Support (DCS). If DCS notifies us that you have a child support obligation, we will withhold child
