

# What energy storage systems are available in Macedonia's power grid

## Overview

---

The energy storage projects include 77 integrated systems paired with existing or new power plants, totalling 1,389MW/3,465 MWh. There are also 19 standalone facilities of a combined 637.

### [Explained: Generative AI's environmental impact](#)

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

### **New materials could boost the energy efficiency of microelectronics**

MIT researchers developed a new fabrication method that could enable them to stack multiple active components, like transistors and memory units, on top of an existing circuit, which

### **YESS Power set to commission Western Balkans' first large battery**

While the Western Balkans still doesn't host any utility-scale BESS, giant leaps forward are seen in North Macedonia. Fortis Energy intends to expand its Oslomej solar power plant with one

### **YESS Power commissions Balkans' first large-scale solar battery**

Turkey-based YESS Power has commissioned a 30 MW battery energy storage system (BESS) for Mey Energy, the first grid-scale facility of its kind in North Macedonia and the Western Balkans, Balkan

### [Using liquid air for grid-scale energy storage](#)

Liquid air energy storage could be the lowest-cost solution for ensuring a reliable power supply on a future grid dominated by carbon-free yet intermittent energy sources, according to a new

### **Energy Secretary Issues Order to Secure Grid Reliability in Mid**

Emergency order increases grid stability and minimizes the risk of energy shortfalls in the Mid-Atlantic region of the United States.

### **Energy Department Announces Realignment of Critical Minerals and**

New organizational structure for the Office of Critical Minerals and Energy Innovation will channel federal resources to the most pressing energy and national security challenges of the 21st

### [What's the best way to expand the US electricity grid?](#)

Growing energy demand means the U.S. will almost certainly have to expand its electricity grid in coming years. What's the best way to do this? A new study by MIT researchers examines

### [FY 2026 Budget Justification . Department of Energy](#)

Fiscal Year 2026 Budget Justification documents

to support the Department of Energy Budget Request to Congress

### Making clean energy investments more successful

New research emphasizes the importance of well-validated models and forecasting tools in evaluating choices for investments in clean energy technologies and policies by governments and

### **N Macedonia adopts 4.4 GW clean energy, 2 GW storage pipeline for**

The government of North Macedonia has approved its annual plan for the construction of energy facilities in 2026, paving the way for nearly 4.42 GW of new clean power generation capacity

### **A new approach could fractionate crude oil using much less energy**

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed for crude oil

### **Energy Department Announces Largest Loan in Department History**

U.S. Secretary of Energy Chris Wright today announced the Department of Energy's Office of Energy Dominance Financing (EDF) has closed a historic \$26.5 billion loan package to

## [Energy Department Announces Fusion Science and Technology](#)

The U.S. Department of Energy released its Fusion Science and Technology Roadmap, a national strategy to accelerate the development and commercialization of fusion energy on the most

## [Solar battery North Macedonia Launches Unique 2024](#)

This facility is the first of its kind at this scale in the region. By pairing a solar power plant with a large-scale battery, the system can store excess

## **North Macedonia Energy Storage Power Lithium Battery: The Future**

With solar and wind projects expanding nationwide, efficient energy storage solutions like power lithium batteries are critical for stabilizing grids and maximizing clean energy adoption.

## **Evelyn Wang: A new energy source at MIT**

As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and channel

## [YESS Power integrates battery system with Novaci PV](#)

In its latest plan for the construction of power

plants and energy storage systems, North Macedonia endorsed 77 projects for co-located batteries

## **New facility to accelerate materials solutions for fusion energy**

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron proton beam

## **Renewable Energy Pillar**

EERE's applied research, development, and demonstration activities aim to make renewable energy cost-competitive with traditional sources of energy. Learn more about EERE's work in geothermal,

## [Energy Department Announces \\$175 Million to](#)

The U.S. Department of Energy (DOE) today announced \$175 million in funding for six projects to modernize, retrofit, and extend the useful life of coal-fired power plants that serve rural

## [North Macedonia issues first big battery licenses, as 60](#)

China-based Cubenergy will provide the energy storage systems while YESS Power will manage all engineering, procurement, installation, and

## North Macedonia's energy

Recent developments demonstrate the first concrete initiatives in applying storage technology. Energo Solar System has submitted applications

## New Energy Storage Applications in North Macedonia: Powering the

North Macedonia's Bogdanci Battery Park, launched in Q2 2024, uses Tesla Megapacks to store wind energy. Fun fact: Its storage capacity equals 3 million smartphone batteries - enough to charge

## How artificial intelligence can help achieve a clean energy future

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

## News & Insights , ARPA-E

WASHINGTON, D.C. - Today, the U.S. Department of Energy (DOE) Advanced Research Projects Agency-Energy (ARPA-E) announced selections for the Quantum Computing for Computational

## [YESS Power Joins the Western Balkans' Largest Solar](#)

YESS Power, together with China-based Cubenergy and under the investment of Mey Energy, is building a 60 MW battery energy storage system

## Department of Energy

Genesis Mission leverages the Department of Energy's unique scientific datasets-spanning more than 100 petabytes of experimental and simulation data across every major domain of science-to double

## 2026 DOE 202 (c) Orders

On January 26, 2026, the Department of Energy (DOE) issued an emergency Order No. 202-26-07, pursuant to section 202 (c) of the Federal Power Act, to Duke Energy Carolinas, LLC and

## [MIT Energy Initiative conference spotlights research](#)

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.
