

# What is the construction site energy storage project

## Overview

---

Energy storage systems replace fossil diesel generators on construction sites, cutting carbon footprint by up to ten times. Achieve carbon-neutral construction from the ground up-save energy, reduce costs, and improve worksite conditions with portable energy storage.

## What is the construction site energy storage project

---

### Battery Energy Storage System

As a low carbon alternative, Battery Energy Storage System (BESS) has been viewed as a viable option to replace traditional diesel-fuelled construction site equipment.

### Why Your Construction Site Should Invest in an Energy Storage System

Construction sites often experience fluctuating energy needs, with periods of high demand depending on the equipment in use and the stage of construction. An ESS allows you to
