

What to do if the photovoltaic panel is installed upside down

Overview

While you can mount solar panels upside down, and while people have done it before, you should probably avoid mounting solar panels upside down unless the manufacturer specifically instructs you to do so.

What to do if the photovoltaic panel is installed upside down

[What happens if install bifacial upside down? : r/SolarDIY](#)

That will mitigate the frame creating more problems with the upside down panel. The interesting way to do this would be a system that flips itself in the winter time so you get full production in the warm
