

# Will solar panels generate current at night

## Overview

---

No - standard photovoltaic (PV) solar panels do not generate useful electricity at night because they require photons from sunlight (solar irradiance) to free electrons and create current.

## Will solar panels generate current at night

---

### Design home solar online using prices of solar providers near you

Uses local climate data, your roof measurements, current local electric rates and current solar system cost to generate an accurate solar cost and savings estimate, customized for your home.
